- NETWORK COLOUR SCAN
- SHARPEDESK
- FAX/PC-FAX  
OPTION  
B/W
- DATA SECURITY KIT  
OPTION

**Innovative User Interface Lets You Make the Most of Advanced MFP Functions**

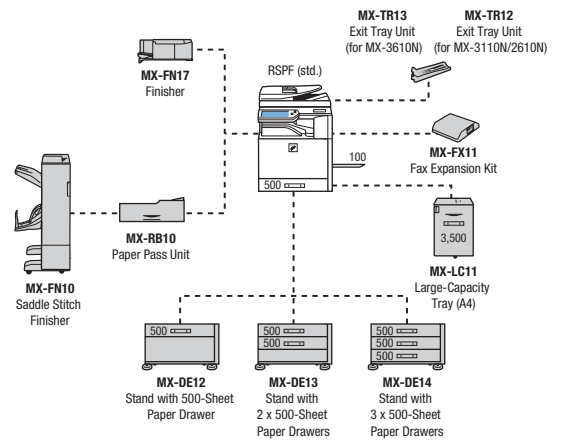

- 10.1-inch WVGA colour LCD touchscreen enables easy, intuitive MFP operation via touchscreen gestures
- Advanced Preview function for pre-print checking of document finishes such as page layout and stapling
- Page Editing function for editing scanned/saved data via drag-and-drop operation on the LCD
- 100-sheet RSPF and stackless duplex module
- True 1,200 x 1,200 dpi high-quality printing
- New developer and second-generation Mycrostoner-HG faithfully reproduce fine lines and halftone colours
- USB port at the front of the MFP allows easy print from/scan to USB memory
- Efficient PDF\*/TIFF/JPEG/XPS\* direct printing
- Hidden-pattern copy/print function protects confidential information
- Document Filing enables reuse of job data stored on the hard disk

**OPTION**

- Various finishing options include saddle stitching and hole punching
- Web Browsing Kit provides Internet access for viewing and printing Web pages via the LCD
- Layered security solutions: document security including data encryption/erase, network security, and access control
- Sharp OSA provides seamless integration with network applications
- Sharp OSA Network Scanner Tool facilitates document scanning and management
- Retractable QWERTY keyboard allows easy text entry
- Creates compact PDF files from scanned documents

\* Optional
